### FULL-HYDRAULIC VIBRATORY ROLLER

## SR10/SR10P

Middle-layer compacting road roller

Engine model: Weichai WP4G110E220

Rated power: 82 kW/2200 rpm

Operating weight: 10 t/11 t

#### **Product features**

This model comes standard with an imported hydraulics system and is available with or without the optional sheep pad roller. Its design features a well-matched engine and hydraulics system for the ultimate in efficient operations and reduced operating costs. Having gone thru very stringent vibration tests and analyses, which led to greatly reduced vibrations, this machine can be expected to operate for a long life. Finally, it has the extra-added touch of having a very attractive design flow to its outward appearance.
